A 4th generation Montanan farmer/rancher/lab scientist. Katy, God and I raised 5 children. A quick picture of my approach is demonstrated in Andy Griffith. Andy is a PEACE OFFICER. Barney is not. The people like Andy, tough on real crime resulting in a victim. People roll their eyes at Barney, enforcing the letter of the law.

Main focus:

Theft, Drug trafficking, vehicular threat, assault and Government encroachment. Standing in the gap

between government and our: Children, health, food production, Forest land, businesses, homes, Guns and churches. Prevent Judicial and legislative tyranny. I understand SEPARATION OF POWERS. Unlawful judicial orders and legislative codes will not be executed.

How?

Through mutual Respect and relationship with the people and the "ACCOUNTABILITY TEAM". The volunteer team is established with respected people throughout the County. Not an echo chamber or an endorsement for the Sheriff, but wisdom power and accountability, providing balance for the sheriff and the people. The Sheriff will cooperate with this team to find solutions and focus "people pressure" on areas beyond his jurisdiction, encouraging government to do their intended job and not encroach on County sovereignty. The Team will allow us to solve our own problems preventing need of outside Government help. Being from here, much of the team is already in place. I know the land, history and many of the people.

Focus:

Relationship building. Not intimidation. It will be fun to build trust one by one. In the process find and prevent crime. Department staff will enjoy structure, clear and regular communication, clear expectations and respectful and enjoyable relationship. Due to the Peace Officer attitude, the Staff will enjoy relationship and respect from the public as the public is left alone to live free of annoying crime.

Experience:

I dont just talk but practice freedom for the people. Served in politics consistently promoting Liberty. Legal experience through multiple Court cases and legilsative bills. Public service seminars on medical issues including Covid, public action alerts on current events. Let a local serve you. Those coming from other places left for a reason and came here for a reason.

Common sense says: People not harming others should be left alone. The Second Amendment is a crucial factor in liberty.
